

## SCHOOL DISTRICT NO. 22 (VERNON)

### HEALTH AND SAFETY

---

#### 1.1 SCHOOL DISTRICT 22 Purpose and Scope of HSE Manual

This HSE Manual contains the minimum standards, procedures, practices, rules, and general guidelines acceptable by WorkSafeBC and School District 22's management. It should be noted that situations may occur that are not covered in this manual and may require additional precautions and due diligence.

The goal of this HSE Manual is to promote and provide an incident free workplace. It communicates the Health, Safety and Environmental topics through the usage and development of School District 22 Policies, Standards, Rules, Safe Work Practices and regulatory requirements for all employees and contractors at all times.

School District 22 HSE Management System is based on standard elements that ensure the minimum Policies, Standards, Rules, Safe Work Practices and regulatory requirements are met and/or exceeded. The elements are expandable and adaptable to ensure that School District 22's approach to HSE remains consistent and a priority. The HSE Management System is a living process that has the ability to grow with and accommodate the growth and success of School District 22.
